

ClearView C Speech

NEW & IMPROVED!

**Listen to printed documents
as they are read aloud within seconds.**

**Simple and effective solutions for the
blind and visually impaired**

The new and improved **ClearView C Speech** makes reading easier. When reading becomes too tiring, simply activate the fast and highly accurate text recognition and enjoy listening to magazine articles, correspondence and books.

Key benefits

- Magnifies documents and photos and provides high contrast
- Scans documents quickly – simply tap the screen to begin
- Point & Read: point at a paragraph or word on-screen and listen instantly
- Starts reading documents aloud in just a few seconds
- Fast and highly accurate text recognition thanks to the high definition camera
- Choose from 59 voices in 31 reading languages
- The built-in font smoothing increases readability of the text in high magnification, creating crisp and clear characters
- Easy to see and find high contrast buttons
- Display the text in a line, column or its original layout
- Use the scroll bars or bullets to quickly navigate through the text
